simpleABI

The simpleABI Handheld PVR system is a portable, clinically precise, and cost-effective solution for detecting Peripheral Artery Disease (P.A.D.). It offers enhanced manual control and clinical accuracy, simplifies reimbursement, and comes with a 2-year warranty.

The small design of simpleABI-250 makes it suitable for various healthcare practices, including mobile imaging services and community health fairs. The system is proudly made in the USA and meets the highest-quality standards.
