

Prefilled Saline Syringes

The SteriCare Solutions sterile water products provide safe, medical grade saline and water products to clinicians worldwide. Our Prefilled Saline Syringes provide the clinician with a high quality, terminally sterile, ready to use solution to enhance patient care and improve clinical workflow while reducing the risk for medication error and inadvertent needlestick injuries.

SteriCare Quality

Industry leading quality controls

- Vertically integrated manufacturing process ensures that our product is inspected at every step in the assembly process
- All of our sterile saline and water is produced on-site to guarantee that our products meet the highest standards of purification
- On site microbiology labs provide an additional level of product integrity pre and post sterilization
- All syringes, including the fluid pathway are terminally sterilized to eliminate risk of solution contamination

SteriCare Performance

Optimized syringe assembly to improve patient outcomes

- Needle free design eliminates risk of an inadvertent needlestick
- Single use design to help reduce risk of medication errors and contamination
- Distinct and prominent syringe labeling allows for easy identification of syringe size and volume

Prefilled Saline Syringes

SteriCare Solutions: The Pure Perfection Difference

- Market leading proficiency in Private Label partnerships
- Innovative solutions to meet your supply chain needs
- Flexible pricing options based on unit commitment
- Uncompromised quality
- Product manufactured and sterilized in the U.S.A

Prefilled Saline Syringe Ordering Information
