The Next Generation of High Frequency Desiccators and Electrosurgical Generators

Unsurpassed 4-year warranty on all Bovie Electrosurgery Generators!

HIGH FREQUENCY DESICCATORS & ELECTROSURGICAL GENERATORS

A942 – Bovie Derm 942	A952 – Bovie Bantam PRO	A1250S – Specialist PRO
<p>Feature: User-friendly and fewer accessories needed for additional functionality.</p> <p>Benefit: Saves time and money during procedures and less accessories to purchase.</p>	<p>Feature: Technologically advanced designed and engineered to be the most reliable and durable generator available today.</p> <p>Benefit: Utilizing the latest chip technology reduces number of internal parts and prolongs the life of the unit.</p>	<p>Feature: The A1250S Specialist PRO is a very affordable solution for most in-office electrosurgery procedures.</p> <p>Benefit: The surgeon receives a much faster return on their investment.</p>
<p>Feature: Adjust power from 0-10 watts at 1/10th watt increments.</p> <p>Benefit: Higher resolution in bi-polar mode.</p>	<p>Feature: 3-Button Handpiece (included)</p> <p>Benefit: Allows the surgeon to adjust the power output up and down as well to activate the unit, even when in footswitch mode.</p>	<p>Feature: Cut and coag activation is on the handpiece.</p> <p>Benefit: The surgeon can move seamlessly from cut to coag without leaving the sterile field.</p>
<p>Feature: 2-pin, 3-button pencil works with or without optional footswitch.</p> <p>Benefit: Cost-effective and user has complete control with activation and up/down power from the handpiece or optional footswitch.</p>	<p>Feature: 50 watts of power</p> <p>Benefit: No grounding pad needed when in desiccation mode.</p>	<p>Feature: The push-button controls allow easier use of the generator.</p> <p>Benefit: Saves time and motion in adjusting the generator. The smoothly embossed push-button front panel allows the staff to clean the generator more quickly since there are no knobs.</p>
<p>Feature: Digital Error Detection</p> <p>Benefit: Continuously monitors every aspect of the unit's output. At the sign of any problem, the machine instantly disables the output and displays the appropriate error code on the display. No grounding pad needed!</p>	<p>Feature: High frequency desiccator with cutting ability.</p> <p>Benefit: Provides a 2-in-one generator system offering 50 watts of cutting power and coag capabilities.</p>	<p>Feature: Split Pad Bovie NEM Technology</p> <p>Benefit: Complete patient safety to prevent burns during procedures.</p>
	<p>Feature: Split Pad Bovie NEM Technology</p> <p>Benefit: Complete patient safety to prevent burns during procedures.</p>	Perfect option for MOHS procedures

RECOMMENDED COMPLEMENTARY PRODUCTS

Smoke Evacuation System

Smoke Shark® II

The Bovie Smoke Shark® II is designed to be easy to use with the A1250S electrosurgical generator, and is effective for controlling surgical smoke generated from the use of any energy devices including electrosurgical, laser, and ultrasonic products.

SERS2 – Smart Shark remote activation switch

Smoke Shark® III

Specifically intended for shorter procedures (15 minute or less) with the A942 and A952 high frequency desiccators. Compact sized for wall mounting in physician offices. Includes SharkSkin™ smoke evacuation pencil adaptor for immediate usage, and Smart Shark remote activation switch for maximizing filter life.

Diagnose and Treat

DermaScout™ II

The DermaScout II is an efficient and dependable instrument for visualization of dermal lesions.

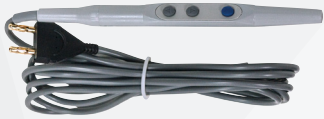

High-Temperature Cauteries

Bovie® is the world leader in battery-operated cauteries.

RECOMMENDED COMPLEMENTARY PRODUCTS (continued)

Pens and Sheaths

A902 – Three-button power control & autoclavable handpiece

ESP1 – Sterile disposable electrosurgical push-button handpiece

A910ST – Disposable handpiece and cord sheath, sterile

A910 – Disposable handpiece sheath, non-sterile

Bipolar accessories

A824 – Reusable bipolar forceps

A827V – Bipolar cable

A803 – Footswitch (for A942/A952)

BV-1253B – Footswitch (for A1250S)

Specialty Electrodes

Tungsten wire loop electrodes

Microdissection needle electrodes

ES61 – Supercut tungsten needle electrode

ES20 – Ball electrode

ES02 – Needle electrode

Dermal Tip Electrodes

A804 (non-sterile) & A805 (sterile)
Sharp dermal tip

A806 (non-sterile) & A807 (sterile)
Blunt dermal tip

A806DE (non-sterile) & A807DE (sterile)
Derm-Elite premium blunt dermal tip

H10012 (non-sterile) & H10008 (sterile)
H-type sharp tip

H10112 (non-sterile) & H10108 (sterile)
H-type blunt tip
