## **Products Not Requiring Material Safety Data Sheet**

The Occupational Safety and Health Administration's (OSHA) Hazard Communication Standard (29CFR1910.1200) requires manufacturers to prepare material safety data sheets for chemical products which are considered "hazardous" according to the regulation. For a chemical or formulation to be hazardous, it must present either a physical hazard or health hazard. The list below identifies those Hospira products that do not meet OSHA's "hazardous" chemical classification. Material safety data sheets have not been prepared for the products listed below.

4 Trace Elements Injection Hetastarch in Sodium Chloride Injection Potassium Chloride in Sodium Chloride Injection Hextend® - 6% Hetastarch in Lactated Acetic Acid Irrigation Electrolyte Injection Potassium Chloride Injection Aminosyn® (An Amino Acid Ionosol® and Dextrose Injection Ringer's and Dextrose Injection Injection) Aminosyn® in Dextrose Injection Lactated Ringer's Injection Ringer's Injection Ascorbic Acid Injection Lactated Ringer's Irrigation Ringer's Irrigation **Balanced Salt Solution** Liposyn® (I.V. Fat Emulsion) Sodium Acetate Injection Calcium Gluconate Injection LMD in Dextrose Injection Sodium Bicarbonate Injection Cardioplegic Solution (Plegisol®) LMD in Sodium Chloride Injection Sodium Chloride Injection Chromic Chloride Injection Manganese Chloride Injection Sodium Chloride Irrigation Cupric Chloride Injection Mannitol Injection Sodium Lactate Injection Dextran in Dextrose Injection Medical Devices Sodium Phosphates Injection Dextran in Sodium Chloride Normosol® Injection Sorbitol-Mannitol Irrigation Injection Physiosol® Irrigation

Dextrose and Lactated Ringer's Potassium Acetate Injection Injection

Dextrose and Ringer's Injection Dextrose and Sodium Chloride

Injection

**Dextrose Injection** Elliott's Solution A Glycine Irrigation

Chloride Injection Potassium Chloride in Dextrose Injection Potassium Chloride in Lactated

Sterile Water for Injection Sterile Water for Irrigation Potassium Chloride in Dextrose and Sodium Theophylline in Dextrose Injection Voluven 6% Hydroxyethyl Starch Solution Zinc Chloride Injection

## Disclaimer:

The information contained in these data sheets is based on the data available to Hospira as of the posting on this web site of this information, and is believed to be accurate based upon that data as of such time. This information is provided independently of any sale of the products, for purpose of hazard communication. It is not intended to constitute product performance information, and no express or implied warranty of any kind is made with respect to the product, underlying data or the information contained herein.
