Use the search box at the top right of the site to search for safety data sheets (SDS). To locate the SDS for a specific product, enter part of the product name, filter the search using the check boxes, then click on the magnifying glass

US OSHA-HAZARD COMMUNICATION-CHANGE TO SAFETY DATA SHEETS

The Occupational Safety and Health Administration's (OSHA) Hazard Communication Standard (29CFR 910 1200) requires manufacturers to prepare Safety Data Sheets for chemical products that are considered "hazardous" according to the regulation. For a chemical or formulation to be hazardous under OSHA's Hazard Communication Standard, it must present either a physical hazard or health hazard.

On June 1, 2015 OSHA's revised Hazard Communication Standard became effective. The Hazard Communication Standard now requires chemical manufacturers, distributors, or importers to provide new Safety Data Sheets, formerly known as Material Safety Data Sheets (MSDS), in a revised uniform format that includes standardized section numbers

All Hospira products which require a Safety Data Sheet under the regulation have been revised and updated to the new SDS format. For the purposes of hazard communication, the term MSDS and SDS are used interchangeably on our product catalog during this transition period.

PRODUCTS NOT REQUIRING SAFETY DATA SHEET

The list below identifies those Hospira products that do not meet OSHA's "hazardous" chemical classification. Safety data sheets have not been prepared for the products listed below

4 Trace Elements Injection

Acetic Acid Impation

Aminosyn™ (An Amino Acid Injection)

Aminosyn™ in Dextrose Injection

Ascorbic Acid Injection

Balanced Satt Solution

Calcium Gluconate Injection

Chromic Chlonde Injection Cupric Chloride Injection

Dextran in Dextrose Injection

Dextran in Sodium Chloride Injection

Dextrose and Lactated Ringer's Injection

Dextrose and Ringer's Injection Dextrose and Sodium Chloride Injection

Dextrose Injection Elliott's Solution A

Glycine Imigation

Hetastarch in Sodium Chloride Injection

Hextend™ - 6% Hetastarch in Lactated Electrolyte

Ionosol™ and Dextrose Injection Lactated Ringer's Injection

Lactated Ringer's Imigation

Liposyn™ (LV Fat Emulsion)

LMD in Dextrose Injection

LMD in Sodium Chloride Injection

Manganese Chloride Injection

Mannitol Injection

Medical Devices

Normosol™ Injection Physiosol™ Imigation

Polassium Acetate Injection

Potassium Chloride in Dextrose and Sodium Chloride

Injection

Potassium Chloride in Dextrose Injection

Potassium Chloride in Lactated

Potassium Chloride in Sodium Chloride Injection Potassium Chloride Injection

Ringer's and Dextrose Injection

Ringer's Injection

Ringer's Impation

Sodium Acetate Injection Sodium Bicarbonate Injection

Sodium Chloride Injection

Sodium Chloride Irrigation

Sodium Lactate Injection

Sodium Phosphates Injection

Sorbitol-Mannitol Imgation

Sterile Water for Injection Sterile Water for Imigation

Theophylline in Dextrose Injection

Voluven 6% Hydroxyethyl Starch Solution Zinc Chloride Injection
