

# AMIODARONE HYDROCHLORIDE INJECTION, 50MG/ML

## SAFETY DATA SHEET

according to Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 / Rules and Regulations

### 1. IDENTIFICATION OF THE SUBSTANCE/MIXTURE AND OF THE COMPANY

#### **Product Identifier**

**Product name:** Amiodarone Hydrochloride Injection, 50mg/mL

#### **Intended Use Of The Product**

**Use of the substance/preparation:** Pharmaceutical. Antiarrhythmic drug. Use only as directed. Refer to product insert for usage instructions and product information.

#### **Name, Address, And Telephone Of The Responsible Party**

##### **Supplier:**

Mylan Institutional LLC  
1718 Northrock Court  
Rockford, IL 61003 USA  
800.848.0462

[www.mylan.com](http://www.mylan.com)

##### **Manufacturer:**

Mylan Teoranta  
Galway, Ireland

#### **Emergency Telephone Number**

**Emergency number** : +1 877-446-3679

### 2. HAZARDS IDENTIFICATION

**Patients/Consumers:** Please refer to the product information insert or product label for appropriate consumer-specific information about this product when used according to the physician's directions. Pharmaceutical Agent – Handling of this product in its final form presents minimal occupational exposure risk.

#### **Classification Of The Substance Or Mixture**

##### **Classification (GHS-US)**

Eye Irrit. 2B H320  
Repr. 2 H361  
STOT SE 1 H370

#### **Label Elements**

##### **GHS-US labeling**

##### **Hazard pictograms (GHS-US)**

##### **Signal word (GHS-US)**

: Danger

##### **Hazard statements (GHS-US)**

: H320 - Causes eye irritation  
H361 - Suspected of damaging fertility or the unborn child  
H370 - Causes damage to organs

##### **Precautionary statements (GHS-US)**

: P201 - Obtain special instructions before use.  
P202 - Do not handle until all safety precautions have been read and understood.  
P260 - Do not breathe dust/fume/gas/mist/vapors/spray.  
P264 - Wash hands, forearms, and exposed areas thoroughly after handling.  
P270 - Do not eat, drink or smoke when using this product.  
P280 - Wear protective gloves/protective clothing/eye protection/face protection.  
P305+P351+P338 - If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.  
P308+P313 - If exposed or concerned: Get medical advice/attention.  
P321 - Specific treatment (see section 4).  
P337+P313 - If eye irritation persists: Get medical advice/attention.

P405 - Store locked up.  
P501 - Dispose of contents/container according to local, regional, national, territorial, provincial, and international regulations.

#### **Other Hazards**

**Other hazards not contributing to the classification:** Cardiac effects. Amiodarone Hydrochloride Injection may cause a worsening of existing arrhythmias or precipitate a new arrhythmia. Refer to product insert for complete adverse drug interactions.

**Unknown acute toxicity (GHS US)** Not available

### **3. COMPOSITION/INFORMATION ON INGREDIENTS**

#### **Mixture**

| Name                                                                                  | Product identifier   | % (w/w) | Classification (GHS-US)                                                                                                   |
|---------------------------------------------------------------------------------------|----------------------|---------|---------------------------------------------------------------------------------------------------------------------------|
| Polyoxyethylene 20 sorbitan monooleate                                                | (CAS No.) 9005-65-6  | 7 - 13  | Eye Irrit. 2B, H320<br>STOT SE 1, H370                                                                                    |

| Benzyl alcohol                                                                        | (CAS No.) 100-51-6   | 1 - 5   | Flam. Liq. 4, H227<br>Acute Tox. 4 (Oral), H302<br>Acute Tox. 4 (Dermal), H312<br>Acute Tox. 3 (Inhalation: vapour), H331 |

Full text of H-phrases: see section 16

### **4. FIRST AID MEASURES**

#### **Description Of First Aid Measures**

**General:** Never give anything by mouth to an unconscious person. If you feel unwell, seek medical advice (show the label where possible).

**Inhalation:** The risk of inhalation exposure is negligible when product is in its final packaged form. If exposed and become symptomatic, move to fresh air and get medical attention if symptoms persist.

**Skin Contact:** Basic hygiene and appropriate precautions should prevent skin contact. If skin contact occurs, wash affected area with soap and water for at least 15 minutes. Should skin irritation, allergic reaction, or rash occur, remove contaminated clothing (if required) and seek medical advice.

**Eye Contact:** The risk of eye exposure is negligible when product is in its final packaged form. If eye contact occurs, flush immediately with water for at least 15 minutes. If easy to do, remove contact lenses. Get medical attention.

**Ingestion:** If accidental ingestion occurs, flush mouth out with water and get medical attention.

#### **Most Important Symptoms And Effects Both Acute and Delayed**

**General:** Irritation to eyes, skin and respiratory tract.

**Inhalation:** Inhalation of vapor and/or mist may cause respiratory irritation.

**Skin Contact:** May cause skin irritation.

**Eye Contact:** Causes eye irritation.

**Ingestion:** Abdominal pain. Gastrointestinal irritation. May be harmful if swallowed.

**Injection:** The most common adverse effects reported include fever, bradycardia, congestive heart failure, heart arrest, hypotension, ventricular tachycardia, abnormal liver function, nausea.

**Chronic symptoms:** May cause damage to heart, liver, and kidneys.

#### **Indication Of Any Immediate Medical Attention And Special Treatment Needed**

If exposed or concerned, get medical advice and attention. In the event of an accidental injection, call a poison center and go immediately to the nearest emergency room.

### **5. FIREFIGHTING MEASURES**

#### **Extinguishing Media**

**Suitable extinguishing media:** Dry chemical powder, alcohol-resistant foam, carbon dioxide (CO<sub>2</sub>).

**Unsuitable extinguishing media:** Do not use a heavy water stream. Use of a heavy stream of water may spread fire.

#### **Special Hazards Arising From The Substance Or Mixture**

**Fire hazard:** Not considered flammable but may burn at high temperatures.

**Explosion hazard:** Product is not explosive.

**Reactivity:** Hazardous reactions will not occur under normal conditions.

#### **Advice For Firefighters**

**Firefighting instructions:** Use water spray or fog for cooling exposed containers. Exercise caution when fighting any chemical fire.

**Protection during firefighting:** Do not enter fire area without proper protective equipment, including respiratory protection.

**Hazardous Combustion Products:** Carbon oxides (CO, CO<sub>2</sub>), nitrogen oxides, chlorine gas.

**Other information:** Refer to Section 9 for flammability properties.

## 6. ACCIDENTAL RELEASE MEASURES

### **Personal Precautions, Protective Equipment And Emergency Procedures**

**General measures:** Avoid all eye and skin contact and do not breathe vapor and mist. Keep away from heat/sparks/open flames/hot surfaces. – No smoking.

#### **For Non-Emergency Personnel**

**Protective equipment:** Use appropriate personal protection equipment (PPE).

**Emergency procedures:** Do not touch or walk through spilled material.

#### **For Emergency Personnel**

**Protective equipment:** Use appropriate personal protection equipment (PPE).

**Emergency procedures:** Ventilate area. If possible, stop flow of product.

### **Environmental Precautions**

Prevent entry to sewers and public waters.

### **Methods And Material For Containment And Cleaning Up**

**Methods for cleaning up:** For small quantities associated with normal therapeutic use, collect spillage and transfer to a closed waste container for disposal. For large or bulk quantities, after absorption with inert material, collect spillage by sweeping up spilled material and place in a labeled, sealed container for proper disposal.

### **Reference To Other Sections**

See Heading 8, Exposure Controls and Personal Protection.

## 7. HANDLING AND STORAGE

**Patients/Consumers:** Patients should adhere to the instructions provided within the product information insert or product label for appropriate consumer-specific information about this product when used according to the physician's directions.

### **Precautions For Safe Handling**

**Hygiene measures:** Avoid contact with eyes, skin and clothing. Avoid breathing vapor or mist. Use appropriate personal protective equipment when handling and observe good personal hygiene measures after handling.

### **Conditions For Safe Storage, Including Any Incompatibilities**

**Storage conditions:** Keep away from heat and direct sunlight. Store in unopened containers. Store locked up.

**Storage temperature:** 20-25°C (68-77°F)

### **Specific End Use(s)**

Pharmaceutical

## 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

### **Control Parameters**

No Occupational Exposure Limits have been established for this product or its components.

### **Exposure Controls**

**Appropriate engineering controls:** Not generally required. Site-specific risk assessments should be conducted to determine the appropriate exposure control measures. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits.

**Personal protective equipment:** Safety glasses. Protective clothing. Gloves.

**Hand protection:** Wear protective gloves made from PVC, neoprene, nitrile, vinyl, or PVC/NBR.

**Eye protection:** In laboratory, medical or industrial settings, or operations in which airborne particulates will be generated, safety glasses with side shields are recommended.

**Skin and body protection:** In laboratory, medical or industrial settings, impervious disposable gloves and protective clothing are recommended if skin contact with drug product is possible.

**Respiratory protection:** When manufacturing or handling product in large quantities and dusts or particulates may be generated, maintain airborne concentrations below recommended limits. Workplace risk assessments should be completed before specifying and implementing respirator usage. NIOSH/MSHA approved respirators for protection should be used if respirators are found to be necessary.

## 9. PHYSICAL AND CHEMICAL PROPERTIES

### **Information On Basic Physical And Chemical Properties**

|                                             |                      |
|---------------------------------------------|----------------------|
| Physical state                              | : Liquid             |
| Appearance                                  | : Clear, pale-yellow |
| Odor                                        | : Not available      |
| Odor threshold                              | : Not available      |
| pH                                          | : Not available      |
| Relative evaporation rate (butyl acetate=1) | : Not available      |
| Melting point                               | : Not available      |
| Freezing point                              | : Not available      |
| Boiling point                               | : Not available      |
| Flash point                                 | : Not available      |

|                                                   |                 |
|---------------------------------------------------|-----------------|
| Auto-ignition temperature                         | : Not available |
| Decomposition Temperature                         | : Not available |
| Flammability (solid, gas)                         | : Not available |
| Lower flammable limit                             | : Not available |
| Upper flammable limit                             | : Not available |
| Vapor pressure                                    | : Not available |
| Relative vapor density at 20 °C                   | : Not available |
| Relative density                                  | : Not available |
| Specific gravity                                  | : Not available |
| Solubility                                        | : Not available |
| Log Pow                                           | : Not available |
| Log Kow                                           | : Not available |
| Viscosity, kinematic                              | : Not available |
| Viscosity, dynamic                                | : Not available |
| Explosion data - sensitivity to mechanical impact | : Not available |
| Explosion data - sensitivity to static discharge  | : Not available |

#### 10. STABILITY AND REACTIVITY

**Reactivity** Hazardous reactions will not occur under normal conditions.

**Chemical Stability** Stable at standard temperature and pressure.

**Possibility Of Hazardous Reactions** Hazardous polymerization will not occur.

**Conditions To Avoid** Extremely high or low temperatures.

**Incompatible Materials** Strong bases. Strong oxidizers. Strong acids.

**Hazardous Decomposition Products** Carbon oxides (CO, CO<sub>2</sub>). Nitrogen oxides. Chlorine gas.

#### 11. TOXICOLOGICAL INFORMATION

##### **Information On Toxicological Effects - Product**

**Acute toxicity:** Not classified

**LD50 and LC50 Data:** Not available

**Skin corrosion/irritation:** Not classified

**Serious eye damage/irritation:** Causes eye irritation.

**Respiratory or skin sensitization:** Not classified

**Germ cell mutagenicity:** Not classified

**Teratogenicity:** Not available

**Carcinogenicity:** Not classified

**Specific target organ toxicity (repeated exposure):** Not classified

**Reproductive toxicity:** Suspected of damaging fertility or the unborn child.

**Specific target organ toxicity (single exposure):** Causes damage to organs.

**Aspiration hazard:** Not classified

##### **Information On Toxicological Effects - Ingredient(s)**

###### **LD50 and LC50 Data**

**Persistence And Degradability** Not available

### Bioaccumulative Potential

|                                  |     |
|----------------------------------|-----|
| <b>Benzyl alcohol (100-51-6)</b> |     |
| Log Pow                          | 1.1 |

## 13. DISPOSAL CONSIDERATIONS

**Waste disposal recommendations:** Dispose of waste material in accordance with all local, regional, national, provincial, territorial and international regulations. Do not dispose of waste into sewer.

**Additional information:** Contaminated sharps should be discarded immediately or as soon as possible in containers that are closable, puncture-resistant, leak proof on sides and bottoms, and appropriately labeled. Contact your local health department for referral to a Safe Syringe Disposal Program.

## 14. TRANSPORT INFORMATION

**In accordance with ICAO/IATA/DOT/TDG**

**UN Number** Not regulated for transport

**UN Proper Shipping Name** Not regulated for transport

## 15. REGULATORY INFORMATION
