HAZARD RATINGS

Health-----N	Flammability -----N
Reactivity--N	Special Hazards ---N

Emergency Telephone Number: (855) 855-1212

Product Name: **Candin® Skin Test Antigen** No C.A.S. number applies. NDC# 59584-138-01

Chemical Family: Biologic (Prescription) Product

Ingredients: The extractables of labeled source material (*Candida albicans*), plus the labeled inert materials.

Physical Characteristics: Clear, with a slight odor of phenol.

Fire and Explosion Hazard: None

Health Hazard: Not a "Hazardous Chemical" as such. May aggravate a previous allergic condition in a person sensitive to the specific antigen. See the Package Insert for PRECAUTIONS and WARNINGS about potential biological, immunological (anaphylactic) reactions.

There should be no effect on intact skin, but accidental injection, ingestion, inhalation, eye contact or broken skin contact may cause a reaction as mentioned above. The severity depends on the exposure and the person's tolerance to the extract. No latex is used in the rubber closures.

No ingredients used in the manufacture of this product pose a risk for Transmissible Spongiform Encephalopathy (TSE). None of the raw materials are from animal sources, with the exception of human albumin.

First Aid Procedures: General hygienic practices suffice for normal contact with the Product. Immediate washing with copious amounts of water is recommended for eye or broken skin contact. If injected, ingested or inhaled, the person should be closely observed for at least one hour. If swelling, difficulty in breathing, general itching, or a rash occurs, immediate medical care for anaphylaxis must be obtained. Local allergic reactions may be treated with antihistamine and topical corticosteroid; systemic allergic reactions may require intramuscular or subcutaneous epinephrine injection and possibly other measures. See the Package Insert for more information about treating those who react.

Stability and Conditions to Avoid: May be shipped overnight without cold pack. Store at 2°C to 8° C (35.6°F to 46.4°F) as soon as received. Once opened, use within expiration date.

Spill or Leak Procedures: Use general housekeeping procedures to clean up broken glass and liquid.

Special Protection Information: No special protection is needed.

Special Precautions: None; observe storage temperature above.
