

ALCAVIS50

HIGH-LEVEL DISINFECTANT
COMPATIBLE WITH CATHETERS,
CAPS & CONNECTORS

High-Level Disinfectant for High-Level Infection Control

Infections are the second leading cause of death in patients with end-stage renal disease (ESRD).¹ Central-line associated blood stream infections are one of the deadliest healthcare-associated infections. Patients with CLABSIs are **2.3 times** more likely to die from these infections.²

Alcavis50™ provides efficient, thorough disinfection that won't damage catheters, caps, or connectors.

- Compatible with ALL catheters, caps & connectors on the market
- Fast-Acting - 60-second kill time against bacteria, fungi, spores, mycobacteria and viruses
- Time saving 2-minute application time
- Stable 30-month shelf life; 180 days once opened

A century of trust, efficacy and safety ready to combat the next era of healthcare-associated infections.

ANTIMICROBIAL EXIT SITE,
SKIN & WOUND CLEANSER

EXSEPTional Infection Control at the Site of Care™

Exit site infection puts peritoneal dialysis patients at an 11 times higher risk of complicated peritonitis.¹

ExSept Plus™ provides gentle antimicrobial action for many indications.

- Versatile - Use anywhere on the skin and catheter exit sites
- Broad-Spectrum - Minimizes risk of contamination
- Well Tolerated - Non-sensitizing, non-allergenic, non-irritating
- Stable - 30-month shelf life; 180 days once opened

Indications:

- Catheter Exit Site Cleansing
- Debriding Agent
- Post-surgical Cleansing
- Stage I-IV Pressure Ulcers
- Diabetic Foot Ulcers
- Graft and Donor Sites

Effective Against:

- *Staphylococcus aureus*
- *Streptococcus faecalis*
- MRSA
- VRE
- *Pseudomonas aeruginosa*

Multi-faceted infection control across multiple indications.
