ONE-CARE[®]

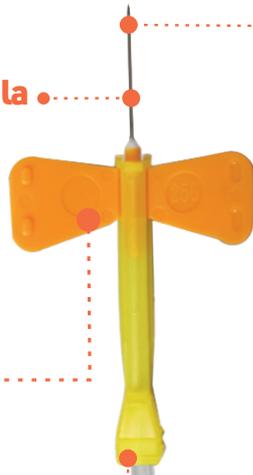

SAFETY BLOOD COLLECTION
WINGED SETS **GLIDE & LOCK**

INSTRUCTIONS FOR USE

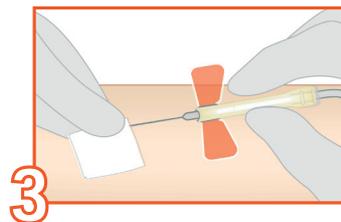

- Intuitive handling with simple steps.

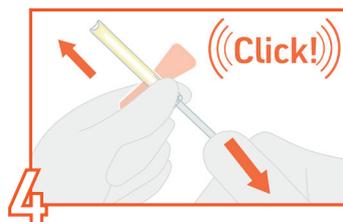

1 Remove the needle protective cover.

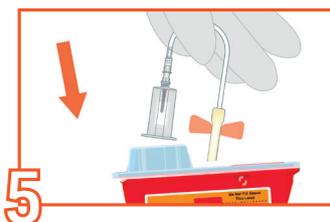

2 Hold the wings together and insert needle bevel side up into the patient's vein. Observe a flash of blood in the transparent chamber, indicating the vein has been accessed. Collect blood sample according to your facility's policy.

3 Gently remove the needle from vein.

4 Glide the yellow safety shield forward and pull tubing backwards with the other hand until an audible "Click" is heard, which indicates that the needle has been permanently locked.

5 Dispose of all used materials as per your facility's policy.

ORDERING INFORMATION

- Available in different needle configurations and with/without pre-attached tube holders:
