

# Pen Needles & Insulin Syringes

PREMIUM QUALITY NEEDLES FOR DIABETES CARE

PEN NEEDLE  
**UtiGuard**® SafePack

UtiCare

## You play a critical role in your community's health.

Pharmacists like you play critical roles in the care continuum. After all, many of your patients see you more often than they see their doctors.

When you select UltiGuard Safe Pack, you give your patients more for the same copay and bring in higher revenue and margins for your business. Further, as most of your patients don't buy sharps containers, dispensing UltiGuard Safe Pack means you do your part for sharps stewardship in your community.

With UltiGuard Safe Pack, you can do the right thing for your patients, your community, and your pharmacy.

**It's Your Choice  
Choose UltiCare**

# Why UltiGuard Safe Pack

When you choose the all-in-one UltiGuard Safe Pack, you give your patients premium, 100-count pen needles and a sharps container, making sharps disposal convenient & affordable.

With the FDA-cleared UltiGuard Safe Pack system, your patients don't need to buy a separate sharps container—and the UltiGuard Safe Pack has the same copay as other options. With UltiGuard Safe Pack, you give your patients more for no additional cost.

Not shown to actual size. 4.5" x 6"

## How UltiGuard Safe Pack Works

UltiGuard Safe Pack has an upper and a lower chamber. Patients get new pen needles from the lower chamber and safely discard used pen needles in the upper chamber. Pen Needle UltiGuard Safe Pack safeguards used needles once patients turn the wheel in the container's side.

When patients finish their needle supplies, they can dispose the UltiGuard Safe Pack according to their state or local guidelines.

# UltiCare® Pen Needles

Available in the UltiGuard Safe Pack — the only dual-purpose system that allows you to dispense a new needle and safely dispose a used needle. Our premium quality needles offer all the comfort features of the leading brand with our patented all-in-one solution specially designed for in-home use.

The Safe Pack contains 100 needles and is available in Micro (4mm), Mini (5mm), Mini (6mm), Short (8mm), and Original (12.7mm) sizes. Also available in 30, 50, and 100 count boxes. UltiCare pen needles fit all pen injectors sold in the U.S.

## UltiMed Incorporated

is a privately held company that manufactures premium quality insulin syringes, pen needles, and safety syringes for the diabetes and animal health markets. The company was founded in 1988 to create high quality products at a better price.

The UltiGuard Safe Pack by UltiMed, is the only FDA cleared dual-purpose system that combines premium quality needles and a sharps container. UltiMed's exclusive all-in-one solution makes the company the world leader in safe needle disposal.

UltiMed is based in Minneapolis, Minnesota with manufacturing facilities in the United States and abroad.
