

WarmGel®

Infant Heel Warmer

Uniform Heat to
Reduce Heel Sticks

**NOW
AVAILABLE**

WarmGel® Technology

Effective

- Conforms to infant's shape, keeping warmth where needed
- Even heat distribution increases blood flow

Safe

- Non-toxic food-grade gel won't harm infant's skin or eyes
- Single-patient use minimizes risk of infection
- Uniform heat distribution reduces the potential for multiple heel sticks

Reliable

- When activated at 75° F (24° C), the temperature of the Infant Heel Warmer rises from 75° F (24° C), to a maximum of 107° F (42° C), then gradually diminishes over time
- Hypo-allergenic lift and stick tape re-attaches for easy adjustment

Product Overview

WarmGel Infant Heel Warmer is a gel-filled, disposable heel warmer designed to provide gentle heat to increase blood flow and enhance infant blood sample collection.
